

## COVID PROTOCOLS AND LIABILITY WAIVER FOR NATIONAL 4-H COUNCIL'S POSITIVE YOUTH DEVELOPMENT EXPERIENCES IN 2022

National 4-H Council is committed to the health and safety of all youth and adults participating in our National 4-H Positive Youth Development (PYD) experiences as we continue to experience the COVID19 pandemic. Council and the planning committee of the National 4-H Dairy Conference continues to follow the latest CDC guidance as well as the State of Wisconsin and Dane County, WI guidance and directives regarding COVID-19. As of March 23, the following protocols will be implemented to help mitigate the risks of exposure to COVID-19 for all participants. These are NOT optional for any youth and adults attending the National 4-H Dairy Conference. Individuals who are unable to comply with these protocols will be asked to leave immediately at their own expense.

These protocols may be further updated prior to or during the event(s), based on any new directives or guidance from the federal, State of Wisconsin and/or Dane County, WI governments.

- Everyone attending must provide proof of a negative COVID-19 test result within 72 hours prior to their arrival in Madison, WI. Any individual who, due to health reasons, is unable to abide by the required protocols and wishes to attend must provide a signed letter from their doctor requesting a waiver.
- **Masks not required, but strongly recommended.** In accordance with the most recent CDC, State of Wisconsin and Dane County Guidelines, masks are not required, but individuals may choose to mask at any time. Participants will be responsible for providing their own well-fitting masks should they wish to wear a mask during the National 4-H Dairy Conference. The National 4-H Dairy Conference will have some masks on hand should a participant need them.
- All participants will be encouraged to wash their hands multiple times throughout the day as recommended by the CDC. It is suggested that participants bring their own hand sanitizer to be used in addition to the sanitizer provided in all public areas of the hotel.
- Based on current CDC information and clinical expertise, older adults (65 and older), those who are unvaccinated and people of any age who have underlying medical conditions might be at higher risk for severe illness from COVID-19. These individuals should consider implementing additional protective protocols. These decisions are the responsibility of the individual, and those who assume liability for their decisions.
- Guidelines and requirements are subject to change at any point and understand we may need to adjust our protocols in accordance with current state and CDC requirements.
